I'm a Delhi-based front-end developer. I enjoy creating things that live on the internet, whether that be websites, UI/UX design, or anything in between. My goal is to always build products that provide responsive experiences.

Fast-forwarding to today, I have completed my graduation and had the privilege of working at a global digital consultancy and a start-up building scalable cloud-based infrastructure. My main focus these days is to learn new skills and technologies.

EDUCATION

Kendriya Vidyalaya, R.K.Puram — 10th

MARCH 2014 - MARCH 2015

Kendriya Vidyalaya, R.K.Puram — 12th

MARCH 2016 - MARCH 2017

Galgotias University, Uttar Pradesh — B.Tech

MARCH 2017 - MARCH 2021

PROJECTS

Crypto App — *React, Axios, Redux-toolkit, Ant Design.*

<https://github.com/adarsh022/Crypto-App>

iKeep — *React, Axios, Firebase, React Bootstrap.*

<https://github.com/adarsh022/iKeep>

Created a google keep clone using firebase authentication and cloundinary to add images to the cloud.

Covid Tracker — *React, Axios, Chart.js.*

<https://github.com/adarsh022/Covid-Tracker>

Created a covid tracker app to implement API and displaying data in graphs.

Quiz App — *React, Axios*

<https://github.com/adarsh022/Quiz-app>

Test your CS skills by trying out this Quiz game.

SKILLS

Google-Cloud

JavaScript-ES6

CSS

Python React Redux HTML

Bootstrap SASS WebFlow

WIX

HOBBIES AND INTERESTS

Plan annual trips to different places to experience new things.

I enjoy reading Manga and Light novels.

Solving Puzzles great way to unwind, destress, and keep the mind sharp.
